

User Model		
Variable Name	Type	Description
username	String	Unique, lowercase, trimmed
email	String	Unique, lowercase, trimmed
fullName	String	Indexed, trimmed
is_active	Boolean	Default: true
avatar	String	Cloudinary URL
coverImage	String	Cloudinary URL
password	String	Encrypted string
refreshToken	String	JWT token
address	String	Default: ""
pincode	String	Default: ""
aadharNo	String	12 digits
mobileNo	String	10 digits
jobTitle	String	Default: ""
role	String	Enum: ["engineer", "admin", "customer"]
socialMedia	Object	Nested object
socialMedia.linkedin	String	
socialMedia.twitter	String	
socialMedia.github	String	
createdAt	Date	Timestamp
updatedAt	Date	Timestamp

Engineer Model		
Variable Name	Type	Description
customerId	ObjectId	Reference to User model
startDate	Date	
pincode	String	
city	String	
endDate	Date	
branchCode	String	
branchName	String	
address	String	
localContact	String	
startTime	String	
endTime	String	
totalCostOfBooking	Number	
paymentStatus	String	Enum: ["Pending", "Completed", "Failed"]
paymentId	String	Default: ""
orderId	String	Razorpay Order ID
engineerAssign	String	Enum: ["Pending", "Assigned"]

createdAt	Date	Timestamp
updatedAt	Date	Timestamp

Contact Model

Variable Name	Type	Description
fullName	String	
email	String	
phoneNumber	String	10 digits
message	String	
createdAt	Date	Timestamp
updatedAt	Date	Timestamp

Branch Data Model

Variable Name	Type	Description
branchCode	String	Unique
branchName	String	
branchManagerDetails	Array	Array of Objects
...managerCode	String	Unique
...managerName	String	part of branch Manager Details object
...managerEmail	String	part of branch Manager Details object
...managerPhoneNumber	String	part of branch Manager Details object
branchAddress	String	
branchLocationGoogleLink	String	
createdAt	Date	Timestamp
updatedAt	Date	Timestamp
